BARNES®

Franklin Electric

NEW PRODUCT ALERT!

MonoDrive Utility Variable provides an easy-to-install 3 wire constant pressure solution to a 230 volt submersible pumping system up to 2 HP.

One MonoDrive Utility replaces up to nine control box configurations, simplifying inventory requirements, providing a more desirable value!

“The Next Generation of MonoDrive. Easier installation, lower cost, and all the standard features of the original MonoDrives. Now every Franklin 3 wire 230 volt system can be easily converted to a constant pressure system.”

Features and Benefits:

- **Cost Effective**
Low cost systems which provide constant pressure and motor/pump protection in a small and robust package.
- **Simple Installation**
Affordable and easy-to-install drive; most applications require the simple flip of one switch, saving time on installation.
- **Easy Servicing**
Separate of the pump and motor, the drive makes troubleshooting/maintenance of the pumping system easier.
- **Simplified Inventory**
Unit compatible with 230 volt 3 wire Franklin motors.
- **Motor Protection**
The features proven by Pumptec, now offered in a basic VFD.
